Library Card Sign-Up Month

We love the month of September! Why? It's National Library Card Sign-Up Month! Local business owners have generously volunteered to offer discounts during the entire month of September to patrons who show a Library Card - any card from any Library.

If you take advantage of this discount, bring your receipt to the Hudson Area Public Library, drop it in our raffle box, and we will draw names at the end of September. Winners will receive gifts from local businesses that sponsor this program! Stop by the Library for a list of participating businesses.

This event is meant to raise awareness of the Library, and we hope you'll sign up for a Library card this month if you're not a card-holder already. The Hudson Area Public Library is a place where knowledge flows freely, and we want you to make yourself welcome here. During the month of September, shop local and support your local business-owners - and use your Library Card!

John Muir Exhibit

The Wisconsin Historical Society will be displaying their John Muir Exhibit at the Hudson Area Public Library in celebration of the Centennial of the National Park Service. The exhibit will be on display September 27– October 11. You're invited to wander through the thoughts and observations of one of America's most important environmental thinkers as he explored this country's marvelous landscapes.

Join us for special guest speaker Michael Edmonds when he introduces the exhibit on Tuesday, September 27 @ 7:00pm.

Last, read a John Muir companion book—we have multiple copies available, and join us for a John Muir book discussion on Wednesday, October 12, from 6:30-7:30pm upstairs in our History Room.
